Quiz Time!/A timed coding quiz app. with a high score board.
- o JavaScript, CSS, HTML, and local storage.

Password Generator/A random password generator app.
- o JavaScript. window alerts & window confirms.

Experience

2023 - PRESENT

Teaching Assistant – Full Stack Web Development/edX, Phoenix, Arizona
- o I assist instructor teaching 30+ students at a coding bootcamp learning full stack web development.
- o I help students with comprehending coding material in main class, breakout rooms and office hours.
- o I take attendance, push solutions at the end of class, and grade student projects.

2020 - PRESENT

Patient Access Representative III/Accredo (Cigna's new specialty pharmacy), Phoenix, AZ
- o Resolved 50+ rejected insurance claims a day for specialty medications. Reached out to insurance plans, providers, and patients for any updates or overrides.
- o Participated in 2 pilot programs to help streamline the insurance change process. The process was to isolate insurance change claims only using a new insurance change application.
- o Assisted instructors with 2 training classes of 10 to 15 people as a subject matter expert.

2018 - 2020

Pharmacy Technician/Cigna Specialty Pharmacy, Phoenix, AZ
- o Loaded incoming prescriptions from the raw script the provider faxed in. Reached out to providers offices to resolve or clarify any issues on the prescription.
- o After Rx has been processed I would bill the insurance. If the claim was rejected I would reach out to the patient's insurance plan to resolve the rejection.
- o Helped trainer by assisting in class of 10 people as a subject matter expert on failed claims.
- o Participated in a failed claims pilot program to increase efficiency by having some techs just work on a single task instead of the entire process.

2017 - 2018

Customer Service Advocate/Cigna Medical, Phoenix, AZ
- o Provided customer service for 60+ inbound calls a day from members and providers in the medical benefits and claim department.
- o When a member or provider called in, I would outline the members benefits for them. Such as coverage, network status, and copays/coinsurance.
- o I resolved escalated member calls for various claim issues. Such as out-of-network, high copays, prior authorization, and appeal issues.
